

SUBJECT INDEX

Volume 18 (1989)

- Acetylcholine, adrenoceptors, arginine vasopressin, endothelin, endothelium-derived contracting factor and relaxing factor, nitric oxide, renin, 165
- Acetylcholine receptors, shock, hemorrhage, cholinomimetics, ACTH, 289
- ACTH, β -endorphin, renin, hypovolemia, 141
- ACTH, hemorrhage, melanopeptides, opioids, 253
- ACTH, hemorrhagic shock, brain, heart, spleen, adrenoceptors, 135
- ACTH, hemorrhagic shock, circulating blood, blood flow, 133
- ACTH, hemorrhagic shock, humans, 145
- ACTH, shock, hemorrhage, cholinomimetics, acetylcholine receptors, 289
- ACTH-(1-24), hypovolemic shock, cardiogenic shock, 149
- Acute hepatic insufficiency, hepatic encephalopathy, hemoperfusion through hepatocytes, 85
- Acute puerperal inversion, septic shock, uterus, 161
- Adrenaline, buffers, cardiopulmonary resuscitation, sodium bicarbonate, 49
- Adrenergic neurons, shock, blood pressure, ventrolateral medulla oblongata, sympathetic nerves, 269
- Adrenoceptors, acetylcholine, arginine vasopressin, endothelin, endothelium-derived contracting factor and relaxing factor, nitric oxide, renin, 165
- Adrenoceptors, hemorrhagic shock, ACTH, brain, heart, spleen, 135
- Adrenocorticotropin, noradrenaline release, presynaptic receptors, blood pressure, baroreceptor reflex, rabbit, 229
- Airway adjuncts, esophageal tracheal combitube, cardiopulmonary resuscitation, 95
- Airway control, artificial ventilation, cardiac arrest, cardiopulmonary resuscitation, emergency medical services, resuscitation, 7
- Anaesthesia, hemorrhagic shock, 157
- ANF, angiotensin, brain, rat, salt excretion, blood pressure, 309
- Angiotensin, ANF, brain, rat, salt excretion, blood pressure, 309
- Antiarrhythmic drugs, cardiac arrhythmias, programmed stimulation, ventricular fibrillation threshold, 21
- Arginine vasopressin, acetylcholine, adrenoceptors, endothelin, endothelium-derived contracting factor and relaxing factor, nitric oxide, renin, 165
- Artificial ventilation, airway control, cardiac arrest, cardiopulmonary resuscitation, emergency medical services, resuscitation, 7
- Baroreceptor reflex, adrenocorticotropin, noradrenaline release, presynaptic receptors, blood pressure, rabbit, 229
- Blood flow, hemorrhagic shock, ACTH, circulating blood, 133
- Blood pressure, adrenocorticotropin, noradrenaline release, presynaptic receptors, baroreceptor reflex, rabbit, 229
- Blood pressure, ANF, angiotensin, brain, rat, salt excretion, 309
- Blood pressure, shock, ventrolateral medulla oblongata, adrenergic neurons, sympathetic nerves, 269
- Blood pressure regulation, β -endorphin, hemorrhagic hypotension, α -methyldopa, opiate antagonists, 173
- Blood transfusion, hemorrhagic shock, 155
- Bombesin, cholecystokinin, shock, hemorrhage, rat, 129
- Brain, ANF, angiotensin, rat, salt excretion, blood pressure, 309
- Brain, hemorrhagic shock, ACTH, heart, spleen, adrenoceptors, 135
- Buffers, adrenaline, cardiopulmonary resuscitation, sodium bicarbonate, 49
- Cardiac arrest, airway control, artificial ventilation, cardiopulmonary resuscitation, emergency medical services, resuscitation, 7
- Cardiac arrest, catecholamines, pH, mean arterial blood pressure, pig, intraosseous, 59

- Cardiac arrhythmias, programmed stimulation, antiarrhythmic drugs, ventricular fibrillation threshold, 21
- Cardiogenic shock, ACTH(1-24), hypovolemic shock, 149
- Cardiology hospital, survival after cardiopulmonary resuscitation, 75
- Cardiopulmonary resuscitation, adrenaline, buffers, sodium bicarbonate, 49
- Cardiopulmonary resuscitation, airway control, artificial ventilation, cardiac arrest, emergency medical services, resuscitation, 7
- Cardiopulmonary resuscitation, esophageal tracheal combitube, airway adjuncts, 95
- Catecholamines, pH, mean arterial blood pressure, cardiac arrest, pig, intraosseous, 59
- Cerebral ischaemia, dihydroergocryptine, ergot alkaloid, Na-K-ATPase, rat behaviour, 37
- Cholecystokinin, bombesin, shock, hemorrhage, rat, 129
- Cholinomimetics, shock, hemorrhage, ACTH, acetylcholine receptors, 289
- Circulating blood, hemorrhagic shock, ACTH, blood flow, 133
- Conjunctival oxygen measurements, normal values, 31
- Dihydroergocryptine, ergot alkaloid, cerebral ischaemia, Na-K-ATPase, rat behaviour, 37
- Disseminated intravascular coagulation, trauma, heparin, 151
- Emergency medical services, airway control, artificial ventilation, cardiac arrest, cardiopulmonary resuscitation, resuscitation, 7
- β -Endorphin, ACTH, renin, hypovolemia, 141
- β -Endorphin, blood pressure regulation, hemorrhagic hypotension, α -methyldopa, opiate antagonists, 173
- Endothelin, acetylcholine, adrenoceptors, arginine vasopressin, endothelium-derived contracting factor and relaxing factor, nitric oxide, renin, 165
- Endothelium-derived contracting factor and relaxing factor, acetylcholine, adrenoceptors, arginine vasopressin, endothelin, nitric oxide, renin, 165
- Endotoxemia, platelet-activating factor, platelet-activating factor antagonists, shock, 207
- Ergot alkaloid, dihydroergocryptine, cerebral ischaemia, Na-K-ATPase, rat behaviour, 37
- Esophageal tracheal combitube, cardiopulmonary resuscitation, airway adjuncts, 95
- First responder CPR, lay public CPR, methods of CPR (desirable requirements), modified Schafer method, 1
- Free radicals, shock, phenyl-butyl-nitrone, 195
- Heart, hemorrhagic shock, ACTH, brain, spleen, adrenoceptors, 135
- Hemoperfusion through hepatocytes, acute hepatic insufficiency, hepatic encephalopathy, 85
- Hemorrhage, ACTH, melanopeptides, opioids, 253
- Hemorrhage, cholecystokinin, bombesin, shock, rat, 129
- Hemorrhage, hemorrhagic shock, hemorrhagic hypotension, sympathetic nervous system, 219
- Hemorrhage, shock, cholinomimetics, ACTH, acetylcholine receptors, 289
- Hemorrhagic hypotension, blood pressure regulation, β -endorphin, α -methyldopa, opiate antagonists, 173
- Hemorrhagic hypotension, hemorrhage, hemorrhagic shock, sympathetic nervous system, 219
- Hemorrhagic shock, ACTH, brain, heart, spleen, adrenoceptors, 135
- Hemorrhagic shock, ACTH, circulating blood, blood flow, 133
- Hemorrhagic shock, ACTH, humans, 145
- Hemorrhagic shock, anaesthesia, 157
- Hemorrhagic shock, blood transfusion, 155
- Hemorrhagic shock, hemorrhage, hemorrhagic hypotension, sympathetic nervous system, 219
- Hemorrhagic shock, hemotorax, subclavian artery, 163
- Hemorrhagic shock, naloxone, naltrexone, nalbuphine, opioid antagonists, 243
- Hemorrhagic shock, plasma expanders, 153
- Hemorrhagic shock, retroperitoneal hematoma, 159
- Hemotorax, hemorrhagic shock, subclavian artery, 163
- Heparin, disseminated intravascular coagulation, trauma, 151

- Hepatic encephalopathia, acute hepatic insufficiency, hemoperfusion through hepatocytes, 85
- Humans, hemorrhagic shock, ACTH, 145
- Hypovolemia, β -endorphin, ACTH, renin, 141
- Hypovolemia, inferior vena cava ballooning, pulmonary vasomotility, 183
- Hypovolemic shock, ACTH-(1-24), cardiogenic shock, 149
- Hypovolemic shock, infusion fluid, temperature, 139
- Inferior vena cava ballooning, pulmonary vasomotility, hypovolemia, 183
- Infusion fluid, hypovolemic shock, temperature, 139
- Intraosseous, catecholamines, pH, mean arterial blood pressure, cardiac arrest, pig, 59
- Lactate, shock, phagocytosis, survival, myocardial depressant factor, 299
- Lay public CPR, first responder CPR, methods of CPR (desirable requirements), modified Schafer method, 1
- Mean arterial blood pressure, catecholamines, pH, cardiac arrest, pig, intraosseous, 59
- Melanopeptides, hemorrhage, ACTH, opioids, 253
- Methods of CPR (desirable requirements), first responder CPR, lay public CPR, modified Schafer method, 1
- α -Methyldopa, blood pressure regulation, β -endorphin, hemorrhagic hypotension, opiate antagonists, 173
- Modified Schafer method, first responder CPR, lay public CPR, methods of CPR (desirable requirements), 1
- Myocardial depressant factor, shock, phagocytosis, survival, lactate, 299
- Na-K-ATPase, dihydroergocryptine, ergot alkaloid, cerebral ischaemia, rat behaviour, 37
- Nalbuphine, hemorrhagic shock, naloxone, naltrexone, opioid antagonists, 243
- Naloxone, hemorrhagic shock, naltrexone, nalbuphine, opioid antagonists, 243
- Naltrexone, hemorrhagic shock, naloxone, nalbuphine, opioid antagonists, 243
- Neostigmine, supraventricular tachycardia, 103
- Nitric oxide, acetylcholine, adrenoceptors, arginine vasopressin, endothelin, endothelium-derived contracting factor and relaxing factor, renin, 165
- Noradrenaline release, adrenocorticotropin, presynaptic receptors, blood pressure, baroreceptor reflex, rabbit, 229
- Normal values, conjunctival oxygen measurements, 31
- Opiate antagonists, blood pressure regulation, β -endorphin, hemorrhagic hypotension, α -methyldopa, 173
- Opioids, hemorrhage, ACTH, melanopeptides, 253
- Opioid antagonists, hemorrhagic shock, naloxone, naltrexone, nalbuphine, 243
- pH, catecholamines, mean arterial blood pressure, cardiac arrest, pig, intraosseous, 59
- Phagocytosis, shock, survival, myocardial depressant factor, lactate, 299
- Phenyl-butyl-nitrone, shock, free radicals, 195
- Pig, catecholamines, pH, mean arterial blood pressure, cardiac arrest, intraosseous, 59
- Plasma expanders, hemorrhagic shock, 153
- Platelet-activating factor, platelet-activating factor antagonists, shock, endotoxemia, 207
- Platelet-activating factor antagonists, platelet-activating factor, shock, endotoxemia, 207
- Presynaptic receptors, adrenocorticotropin, noradrenaline release, blood pressure, baroreceptor reflex, rabbit, 229
- Programmed stimulation, cardiac arrhythmias, antiarrhythmic drugs, ventricular fibrillation threshold, 21
- Pulmonary vasomotility, inferior vena cava ballooning, hypovolemia, 183
- Rabbit, adrenocorticotropin, noradrenaline release, presynaptic receptors, blood pressure, baroreceptor reflex, 229
- Rat, ANF, angiotensin, brain, salt excretion, blood pressure, 309
- Rat, cholecystokinin, bombesin, shock, hemorrhage, 129
- Rat behaviour, dihydroergocryptine, ergot alkaloid, cerebral ischaemia, Na-K-ATPase, 37
- Renin, acetylcholine, adrenoceptors, arginine vasopressin, endothelin, endothelium-derived contracting factor and relaxing factor, nitric oxide, 165

- Renin, β -endorphin, ACTH, hypovolemia, 141
Resuscitation, airway control, artificial ventilation, cardiac arrest, cardiopulmonary resuscitation, emergency medical services, 7
Retroperitoneal hematoma, hemorrhagic shock, 159
- Salt excretion, ANF, angiotensin, brain, rat, blood pressure, 309
Septic shock, acute puerperal inversion, uterus, 161
Shock, blood pressure, ventrolateral medulla oblongata, adrenergic neurons, sympathetic nerves, 269
Shock, cholecystokinin, bombesin, hemorrhage, rat, 129
Shock, free radicals, phenyl-butyl-nitronate, 195
Shock, hemorrhage, cholinomimetics, ACTH, acetylcholine receptors, 289
Shock, phagocytosis, survival, myocardial depressant factor, lactate, 299
Shock, platelet-activating factor, platelet-activating factor antagonists, endotoxemia, 207
Sodium bicarbonate, adrenaline, buffers, cardiopulmonary resuscitation, 49
Spleen, hemorrhagic shock, ACTH, brain, heart, adrenoceptors, 135
- Subclavian artery, hemorrhagic shock, hemothorax, 163
Supraventricular tachycardia, neostigmine, 103
Survival, shock, phagocytosis, myocardial depressant factor, lactate, 299
Survival after cardiopulmonary resuscitation, cardiology hospital, 75
Sympathetic nerves, shock, blood pressure, ventrolateral medulla oblongata, adrenergic neurons, 269
Sympathetic nervous system, hemorrhage, hemorrhagic shock, hemorrhagic hypotension, 219
- Temperature, hypovolemic shock, infusion fluid, 139
Trauma, disseminated intravascular coagulation, heparin, 151
- Uterus, septic shock, acute puerperal inversion, 161
- Ventricular fibrillation threshold, cardiac arrhythmias, programmed stimulation, antiarrhythmic drugs, 21
Ventrolateral medulla oblongata, shock, blood pressure, adrenergic neurons, sympathetic nerves, 269
